

# Hot right now: copper lip gloss

Clear gloss with a slight copper shimmer tones down Angelina Jolie's naturally bright red lips, making them full and peachy.

At the Jan. 9 People's Choice Awards, *Entertainment Tonight* red-carpet reporter Steven Cojocar asked Halle Berry if it had taken her a long time to get ready. The Oscar-winning actress shrugged and said, "It takes a bit of time, but I did my own makeup tonight." Her beauty secret for looking fabulous without the help of a pro? Flattering copper lip gloss. "Copper is so hot right now because it works as a winter neutral, and everyone looks amazing in it," says Sephora makeup artist Lucette Clermont. No wonder it's the latest craze!

Halle Berry matches her copper gloss with her eye shadow.

Sienna Miller chooses a copper with gold — not silver — undertones, to give off a more subtle shine.
